Professional Summary

Full-Stack Developer with experience in building scalable web applications using React and Angular with TypeScript or JavaScript on the frontend and FastAPI with Python on the backend. Skilled in cloud technologies (Google Cloud), REST APIs, and agile methodologies. Passionate about solving complex problems and delivering impactful solutions.

Technical Skills

- Frontend: React, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Mantine, Plotly, Redux Toolkit
- Backend: FastAPI, Python, Node.js
- Databases: PostgreSQL, MySQL, Microsoft SQL Server
- Cloud: Google Cloud Platform, Docker
- Tools: Git, GitHub, Agile/Scrum, SQL Server Profiler, GitHub Actions.

Work Experience

Software Developer Jr

Dataware Soluciones S.A de C.V | Aug 2022 – Nov 2023

- Developed and maintained web modules using ASP .Net.
- Optimized SQL Server queries, improving system performance.
- Deployed and managed web applications on IIS.
- Collaborated in Agile teams, delivering features in daily stand-ups and weekly iterations.
- Standardized code practices and created technical documentation.

Fullstack Developer Mid

Imbera Latinoamerica | Nov 2023 – Present

- Developed web applications with React + Typescript and FastAPI backend.
- Integrated REST APIs and improved UI/UX based on user feedback.
- Increased system performance by implementing efficient state management with Redux Toolkit.
- Mentored Junior developers, providing guidance and code reviews.
- Implemented best practices for coding standards and technical documentation.

- Automated deployment of web applications and APIs using GitHub Actions, deploying to Firebase Hosting and Google Cloud Run.
- Strengthened API security by implementing token-based authentication.
- Contributed to the development of projects with national and international impact for clients such as Coca-Cola , Heineken and others.

Projects

- Inventory Monitoring Platform: Maintained and enhanced an ASP .NET-based platform for real-time inventory visualization and control.
- Coolview Telemetry Dashboard : Real-time telemetry visualization showing the current status of a coolers , built with Angular, Plotly, and FastAPI. Enables preventive maintenance and targeted repairs, reducing costs and increasing revenue. [Live Demo](#).
- Solkos Console: Developed a React + TypeScript platform (using Mantine and Redux Toolkit) enabling companies like Coca-Cola and Heineken to track the location and operational status of refrigerators across Mexico and other countries. Helps optimize marketing strategies and reduce losses by ensuring operational efficiency.

Education

B.S. in Computer Systems Engineering – Instituto Tecnológico de San Juan del Rio (ITSJR) | 2016 – 2021
